

# Assignment

## Assignment tasks:

- Responsive Page using Bootstrap(**Home Page, Search Result Page**)
- Use of JQuery plugins(**owl carousel, dropkick**)

## General description:

- For Required images, check the given “images” folder.
- Both Pages should behave in a responsive manner till 320px screen.
- For font size refer doc folder.
- For responsive refer doc folder for tablet and mobile view.

### Home Page

- Need to use dropkick plugin for banner section. For plugin refer below url:  
<https://github.com/Robdel12/DropKick>
- On banner search will be “button” tag and location will be textbox.
- Need to use owl carousel plugin for “Trending Projects”, “Feature Destinations”, “Most Affordable Projects” for plugin refer below url:  
<https://owlcarousel2.github.io/OwlCarousel2/>
- Need to apply various option to plugin according requirement e.g. in Mobile need to show two items, drag option.
- Need to show hover effect on mouse hover.
- There will be link on all image thumbnail.

### Search Result Page

- Use bootstrap grid structure.
- There will be carousel for each image for plugin refer below url:  
<https://owlcarousel2.github.io/OwlCarousel2/>

- For pagination use below link:  
<https://getbootstrap.com/docs/4.1/components/pagination/>
- For Cause section checkbox use below link:  
<https://getbootstrap.com/docs/4.1/components/forms/>
- For country it will be textbox and Activity it will be dropkick plugin:  
<https://github.com/Robdel12/DropKick>
- There will be link on all image thumbnail.
- "More filters" will be "a" tag. On filter button there will be badge. Use below link for reference:  
<https://getbootstrap.com/docs/4.1/components/badge/>
- "Sort by" will be dropkick dropdown.
- Need to apply various option to plugin according requirement e.g. in Mobile need to show two items, drag option.

**Note: All jquery tasks to be explained in detail in upcoming sessions.**
